-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

1. Claims 4-6 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from any other multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Chia et al. 6,481,196 alone or further in view of Chia et al. 5, 301,498. Chia et al. '196 teaches the claimed invention as best seen in Figs. 5-12 and shown in the specification at column 1, lines 42-45; column 2, lines 48-54 (texture); column 6, lines 7-36; and column 8, lines 35-47 (stamped links). It is inherent if not obvious as treated in lines 42-45 of column 1 of Chia et al. '196, that the links are spot soldering in the production of the chain (see Chia et al. '498 at 15, at least Fig. 14).

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3725

Claims 1 and 3 are rejected under 35 U.S.C. 102(b) as being anticipated by Rozenwasser '477. Rozenwasser teaches the claimed method of assembling a rope chain made from stamped links.

4. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated Grando. Grando teaches the claimed method of assembling a rope chain made from stamped links and the step of spot soldering the limbs of the links along its extent (see column 1, lines 30-37).

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Note: Chia et al. 6,560,955 with a filing date of 6/21/1999 teaches engraving surfaces of links in Figs. 10, 11, 18 (opposite sides different), 19 (opposite sides different), 24, and 26.

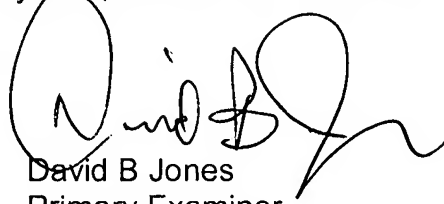

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David B. Jones whose telephone number is 571 272 4518.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Derris Banks can be reached at 571 272-4419. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
